About Us

Started the business journey in 1998, **JRMS Engineering Works** is counted amongst the dominant **manufacturers** and **exporters** worldwide. Located in Kolkata, we are a sole proprietorship firm which has gained name & fame in manufacturing a wide range of **Water Treatment Plant, Package Sewage Treatment Plant, Bio Toilet, Bio Digester Tank, Septic Tank, Security Cabin** and other similar products. The material which we uses for producing these products are of superior grade which enhance our products durability, quality and performance. Accurate composition, rust proof finishing and longer functional life are some of the features which increases the demand of our goods in **Bangladesh, Sri Lanka, South Africa, Australia, Vietnam, Philippines, Saudi Arabia, Turkey, Burma, Nepal, Bhutan and Thailand.**

JRMS is serving more than 6000 customers all across the world. Our company is not only recognized for our premium range products but also known for cost-effective FRP Package STP Maintenance Service. We are backed with an advance production facility covering 16,560 sq. ft. area and registered office spread over 5000 sq. ft. area in Kolkata which helps us in executing the operations smoothly. Through our wide spread network in India and abroad, we are doing on-time deliveries of the orders.

JRMS Engineering Works was established way back in the year 1998 and since then, fulfilling the requirements of numerous industries like paper, cement, sugar, textile, power generation, etc. With our continuous efforts and innovative approaches, we are manufacturing a tremendous quality Industrial Sewage Treatment Plant, FRP Prefab Bio Toilet, FRP Biodigester Tank, Effluent Treatment Plant and varied other products. Features for which our products are admired for include corrosion resistant, sturdy structure, longer operational life and fine finishing. Apart from these products, we are also providing FRP Package STP Maintenance Service at best possible rates to the clients.

The client oriented approaches we are following in our business have made us a preferable name in the market. Further, the superb quality which we are delivering to the customers is all because of the sincere efforts and talent of our team members who strictly follow high quality standards right from the stage of designing to the packaging. By efficiently utilizing our facilities and professionals expertise, we are able to execute all the tasks in the best possible way.
